Following the change of governance in December 2014, the new Asian Paralympic Committee (APC) management team has issued invoices for the Membership Fee for 2015 & 2016 on the basis of the amounts invoiced by the previous APC management team in 2014.

1 NPCs

For 2017 & 2018, in order to be transparent and consistent about the amounts invoiced to each country, it has been decided to calculate the NPC membership fee following a matrix.

This matrix reflects the growth of the Asian Paralympic movement and takes into account the number of participants at regional and international Games, and the level of development of the country – following the UN Human Development Index.

Each NPC has been attributed a certain number of points, as follow:

Number of athletes in Incheon 2014

More than 100 athletes: 4 points
Between 51 and 100 athletes: 3 points
Between 20 and 50 athletes: 2 points
Less than 20 athletes: 1 point

Number of athletes in London 2012

More than 100 athletes: 5 points
Between 51 and 100 athletes: 4 points
Between 26 and 50 athletes: 3 points
Between 10 and 25 athletes: 2 points
Less than 10 athletes: 1 point

HDI (as per UN report for 2015)

HDI value higher than 0.745: 3 points
HDI value between 0.505 and 0.745: 2 points
HDI value less than 0.505: 1 point

The total number of points determines the fee amount for each NPC, as per the below:

10 points & more: USD 1,200
8 points & 9 points: USD 920
7 points: USD 720
6 points: USD 520
5 points: USD 320
3 & 4 points: USD 120

The new repartition of the membership fees for 2017 & 2018 would be as follow:

2 Other members

As per the revision of the APC Constitution, new categories of members have been added (see section 4.1.2 of the APC Constitution). 'Other members' are required to pay a membership fee, which has been defined to USD 200 for each member organisation.

3 Application

This proposal, if ratified by the next APC General Assembly, will be applied for membership fee invoices sent out to NPCs and other members in 2017 and 2018.
